Hey Jay – Senator Rubio’s staff is asking if there’s been any followup. Has the company got in touch with you post-meeting-with-Kell to figure out a CRADA? I know you and Tom Tellefsen talked on the phone once, but I didn’t know if they had followed up with you since then.

Subject: RE: Sen. Rubio Request for Meeting with Aqua Sciences

Thank you all for meeting with the Aqua Sciences team a few weeks back. I’m curious as to how the meeting went from your perspectives and what the typical next steps for the Agency include in these situations.

Best regards,

Wes

Hey folks:

Just wanted to check back in on this as Mr. Tellefsen is trying to confirm his plans. He has availability on the afternoon of February 5th and all day February 6th. He can also make time on the 7th if necessary.

Thank you,

Wes

Wes,

My colleague Sven asked that I assist with your request to facilitate a meeting with Aqua Sciences and EPA to discuss potable water technologies.

Please send the name and contact information of the person interested in meeting with EPA, and program staff will reach out to him directly once the appropriate individual is identified.

Feel free to contact me with any questions.

Kind Regards,

Christina J. Moody

Wes – thanks for the request. Looping in my colleague Denis Borum to facilitate setting up a meeting with Aqua Sciences. Were you thinking in your offices or at EPA? Please let me know if any additional questions. Best,
Sven

Subject: Meeting for drinking water solutions

Gentlemen:

We have two companies based in Florida that have different technologies for collecting potable water from the atmosphere that are exploring potential contract opportunities with the U.S. government. They have asked our office for assistance in connecting them with appropriate contacts within various federal agencies who would be able to meet with them so they can outline the

benefits and performance of their technologies and see if there were potential opportunities to work to further the agency mission. The companies are Water-Gen (whom I believe has already secured meetings with EPA) and Aqua Sciences (who has not).

One of the lead investors for Aqua Sciences will be in town the week of Feb. 5th, and would like to meet with the appropriate folks from EPA during his trip to DC. Is there any way to help arrange that? What would be the best way to proceed?

Best regards,

Wes
